

DST2000

SLIDER TAIL LIFT WITH 2000 KG LIFTING CAPACITY

Engineered for both rigid and trailer applications, the DST2000 boasts a robust, one-piece level ride platform built to conquer the toughest working conditions. Whether you're facing daily deliveries or heavy-duty operations, the DST2000 delivers unmatched strength, stability, and reliability, ensuring peak performance day after day.

Designed to meet the high demands of fast-paced industries, the DST2000 is the ideal choice for operations requiring speed, safety, and efficiency.

Its versatility makes it a go-to solution across a wide range of distribution segments.

Quick installation:

Reduce vehicle downtime and get your fleet operational faster. The DST2000's pre-drilled mounting brackets allows for quicker fitting, saving installation time. Your business stays on schedule and installation becomes hassle-free.

Low maintenance:

With easily accessible grease points, the DST2000 reduces service time and increases operational uptime, making maintenance straightforward and efficient. This helps lower long-term maintenance costs and extending equipment life.

Safer operation:

Operator safety is always a priority. The DST2000 includes built-in safety features that minimise risk during loading and unloading. With hinged ramps and a rear back stop, both personnel and cargo are better protected during every operation.

RECOMMENDED SEGMENTS

- Supermarket Distribution
- Laundry Services
- Retail Outlets

The DEL DST2000 comes with a standard two-year warranty

Product Specifications	
Platform width	2400 mm
Platform depth	1200 mm
Lifting capacity	2000 kg
Bed height	1050-1520 mm
Rear overhang requirement	2040 mm
Platform	Galvanised Steel
Weight of complete lift	750 kg*
Max vehicle weight	26 T

*Standard specification
