## A MODERN LIFTGATE PURPOSE BUILT FOR THE GAS BOTTLE INDUSTRY

### SAFE AND EFFICIENT BOTTLE GAS DELIVERY

A low maintenance, easy-to-operate liftgate option for bottled gas applications.

The bottle gas liftgate offers maximum stability and features sturdy retention rails that automatically open to the operating position as the platform opens and automatically folds away when the liftgate is returned to the stored position.

The platform is a lightweight aluminum material that features a knurled surface for safety.

#### **Reliable performance:**

Hydraulic circuit design and automatic self-leveling system allow the load to be offset without compromising capacity. The platform lifts parallel to the truck bed, keeping the bottle upright even on uneven road surfaces. Fully lubricated cylinders reduce seal wear and the closed hydraulics system keeps fluid contaminants out.

#### **Safer operation:**

Rubot retention rails and wide ramp designed specifically for safe gas bottle transportation. Platform worklights create safety awareness for pedestrians and road traffic.

#### **Slip resistance:**

The platform comes with ridged aluminum knurled surface to help with grip, creating a non-slip environment.

#### **Simplified installation:**

Designed specifically to be installed on bottle gas truck stakebody. The gate is designed for bolt-on installation, and sits on rear sill.

### Recommended Segments

- Bottle Gas

MDVBG Specifications	
Platform width	82" or 88"
Platform depth	42"
Lifting capacity	3,500 lb. and 4,500 lb.
Bed height	Min 40" to Max 54"
Platform	Aluminum
Ramp	96": 16" x 64" 102": 16" x 70"
Weight of complete lift	From 1,106 lbs.

## Standard Features

Safety	Performance	Maintenance	Installation	Material
Saloon door fence	Hydraulic power open/close	Lifetime warranty UHMW slide pads	Single pump and motor box	Galvanized finish
Heavy duty railings	Power down	Thermally protected motors	Bolt-on installation	Knurled aluminum platform
Platform illuminating worklights	Series hydraulic circuit design			
Retention ramp	LED tail lights configurations Level ride Heavy duty dock bumpers			

## Optional Features

Safety	Performance	Maintenance	Installation
Cab shut off switch	Batteries Solar power kit	Cycle counter	Auxiliary Battery Box Rain cap kit
