

ZS 150/200/250 MK2

THE HEAVY DUTY SLIDER LIFT FOR TRUCKS WITH GVW OVER 12 TONNES

The ZS features a powder-painted, high-strength steel frame and platforms in different sizes, and options.

Robust and sturdy design with corrosion-protected cylinders and the new solid state control system makes this the perfect choice for all heavy trucks.

A robust lift designed to maximise vehicle up-time and lift life.

Sturdy:

High strength steel used in the lifting mechanism makes this lift sturdy and durable. A well dimensioned hydraulic system makes the operation fast, regardless of the weather condition. A stowed platform acts as the rear under-run protection according to UNECE R58.03.

Ease of installation:

Width-adjustable mounting brackets, integrated control unit bracket, and a pre-installed power pack makes the lift easy to install.

Low maintenance:

All cylinders are fully protected by bellows. An easy to access power pack with a hydraulic filter in mount tube protects the sensitive parts and makes maintenance quick and simple.

The ZS features corrosion-resistant material in all pins and drives.

The slider lift is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

SUITABLE FOR

- Vehicle rental
- Food and Beverage
- Home delivery services

ZS 150/200/250 MK2 Specifications	
Platform width	Up to 2400 mm*
Platform depth	Up to 1960 mm*
Lifting capacity	Up to 2500 kg at 750 mm CoG
Bed height	Up to 1725 mm
Voltage	12V or 24V
Platform	Aluminium-aluminium
Weight of complete lift	From 493 kg

*See specification sheet for details

OPTIONS

Safety	Operation	Material	Installation
Trolley stops IP67 flashing warning lights on platform Non-slip platform	Foot control Auto-tilt Up to three controls can be used, including one radio remote control Water absorbing oil filter for extended lift and oil life 3 different arm lengths to fit all types of trucks and applications	Corrosion-protected hydraulic slider motor for tough climates Two sizes of bavettas with integrated platform stops for easier installation	Available both as standard version and slim version with maximized ground clearance Brackets pre-drilled for all major truck manufacturers

*Also retrofittable

For full specification and possible combination of options please refer to lift data sheet and price list.
