

MOFFETT M8 NX2

With capacity increased to 6500 lbs, the new models M8 65.3P NX2 and M8 65.4P NX2 handle heavier loads while keeping their lightweight agility. One machine covers every load on any terrain, maximizing productivity and keeping operators safe.

MORE CAPACITY.
MORE FLEXIBILITY.
MORE PRODUCTIVITY

6500

PERFORMANCE

CLASS-LEADING 6500 LBS CAPACITY

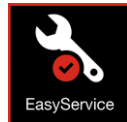

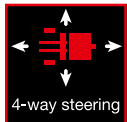

The increased capacity to 6500 lbs handles heavier loads, without compromising on maneuverability or transport efficiency. Combined with a more robust construction, this enables longer service intervals and a lower total cost of ownership, while all-terrain capability ensures stability on rough ground and reduces downtime. The result: one versatile machine for light to heavy materials.

EFFICIENCY

MORE DELIVERIES AND FASTER TURNAROUND

With its compact design and outstanding maneuverability, the MOFFETT M8 NX2 easily navigates tight spaces and fits on almost any truck, while allowing for greater payload capacity. Bigger loads mean fewer trips and lifts, and with single-side offloading, the operator can load and unload from one side of the truck. You complete more deliveries per shift with faster turnaround at every delivery.

SAFETY & EASE OF USE

OPERATOR-FIRST DESIGN

The generous 6500 lbs capacity ensures comfortable operation on even the most challenging lifts, lowering operator stress and overload risks. Ergonomic controls, improved visibility, and an intuitive interface provide a safe and easy-to-use experience, simplifying training and onboarding for new operators. Advanced safety features and ground assist help meet compliance and reduce accident risk.

Model	M8 65.3P NX2	M8 65.4P NX2
Lifting capacity (@24" load center)	6500 lbs	6500 lbs
Diesel engine (Power hp)	Kohler KDI1903 (56 hp)	
Lifting height (Standard / Option 1)	10' / 12'	
Wheels type (Standard, Front/Rear)	31x15.5-15 8 PLY (T.G.) 31x15.5-15 8 PLY (T.G.)	Front 31.5x13-16.5 10 PLY Rear 31X15.5-15 8 PLY
Wheels type (Option)	31.5x13N16.5 XTWEEL	
Drive configuration	3WD	3WD & 4way
Unladen weight*	7077 lbs	8477 lbs
Overhang	70"	
Ground clearance	12"	

*Values may vary depending on the machine & mounting kit specification.
