

# Vally Brick Grab 2000

A scissor-type grab designed for safe and efficient handling of both palletized and non-palletized materials, featuring hydraulically operated, synchronized clamping arms.

## KEY BENEFITS

### Superior Power-to-Weight

Lower product weight achieves an excellent weight-to-power ratio

### Hydraulic Precision

Features hydraulically operated, synchronized clamping arms for secure handling

### Low Profile Design

Reduced overall height due to a lower rotator position

### Durable Rails

Compression rails are equipped with durable and replaceable rubber inserts

## SEGMENT

Construction, logistics, landscaping

TECHNICAL DATA	BRICK GRAB 1000	BRICK GRAB 1100	BRICK GRAB 1200	BRICK GRAB 1300
